Experience

Full stack web developer, *Corporación de Educación Superior del Litoral*
August 2023 – October 2024

Developed a document management system for the CIESE Congress, implementing user registration, file management, payment integration, and email automation. The system optimized processes, reduced errors, and improved efficiency in registration and payments.

Education

August 2022 – November 2023
Web development technician, Corporación de Educación Superior del Litoral
