- Database Design and Administration (SQL & NoSQL)
- Microsoft Office: Word, Excel, PowerPoint
- Attention to Detail & Accuracy
- Organizational & Time Management Skills
- Effective Verbal and Written Communication
- CRM & Ticketing Systems
- Programming Languages: PHP, JavaScript, TypeScript
- Process Coordination with Internal Teams

PROFESSIONAL EXPERIENCE

Allied Global — Customer Service Representative

December 2025 – Present

- Provided administrative and customer support for Verizon accounts via calls and digital channels, resolving billing, service, and technical inquiries with accuracy and within established timeframes.
- Maintained accurate records of customer interactions using CRM and ticketing systems, ensuring data integrity and compliance with company policies and service-level agreements (SLAs).
- Prepared documentation and followed standardized procedures to troubleshoot issues, escalating cases to the appropriate internal teams when required.
- Coordinated with internal departments to resolve account and billing discrepancies, supporting smooth day-to-day operations.

Corporación Educativa del Litoral — Full Stack Web Developer (Administrative & Document Systems)

August 2023 – October 2024

- Led the development of a document management system for the International Congress on Critical Studies of Society, Business and Education (CIESE), supporting registration, payment, and document handling processes.
- Designed and maintained relational and non-relational databases for accounting, user records, and payment tracking, ensuring accurate and organized record-keeping.
- Implemented automated email notifications and reporting features that reduced manual administrative workload and improved data accuracy.
- Managed file upload, storage, and retrieval processes, ensuring documentation was organized, accessible, and compliant with internal standards.
